Bachelor of Arts, Biology

August 2013 - May 2016

Honors And Awards

SMART Transfer Award

Spring 2014

- Worked in Matthew Gfeller TBI Research Center
 - Poster Presentation: The Relationship Between Computerized Reaction Time and Head Impact Volume in High School Football Players
-

Lab Experience

UNC Department of Exercise and Sport Science

Matthew Gfeller TBI Research Center

May 2015 - Present

Research Coordinator

Currently work under Dr. Kevin Guskiewicz and Dr. Jason Mihalik. Work with student athletes both from UNC and local area high schools. I initially worked as a Research Assistant from the May 2015 until June 2016 when I started as a Research Coordinator.

BeMod

- Behavior modification program for high school football players
- After viewing head impact data post practice and competition certain "at risk" players are selected to receive a behavioral intervention

CARE - Concussion Assessment, Research and Education Consortium

- NCAA and DoD sponsored prospective study looking at concussion and the return to play progression after sustaining a sport-related concussion
- UNC is one of only 6 sites with an "Advanced Research Core" involving blood biomarker analysis and brain imaging following concussion
